MEMORANDUM FOR THE RECORD

SUBJECT: [ ] Comparator for DIA

1. [ ] is for the fabrication of two comparators, one Twin Stage PI Stereo Comparator Prototype--a development effort monitored by TSSG/DED/R&DB-I--and one modified 880 Comparator for DIA. Both comparators were purchased under the same contract because of the savings that could be made on joint procurement of the electronics.

2. Discussions with [ ] Chief, Techniques and Development Division, DIA/DIAAP-9 Detachment resulted in his agreement to monitor the technical progress of the 880 Comparator fabrication and advise the TSSG/DED monitor, who has total technical contractual responsibility, accordingly. The TSSG/DED monitor will advise DIA when inspection trips are appropriate and DIA will make inspections and will make the final acceptance when the instrument is installed in their spaces.
